

In these sentences, the word in capitals has had three letters next to each other removed. These three letters will make one correctly spelt word without changing their order. The sentence that you make must make sense.

**Example**      The flight LED ten minutes late.

**A** EAT      **B** LOT      **C** AND      **D** EEL      **E** EVE

**Answer**      **AND**

**Solution**      The three-letter word that has been removed from LED is 'AND'.  
If we place this three-letter between L and ED, it creates the word LANDED and completes the sentence.
